

Aron Bariagabr

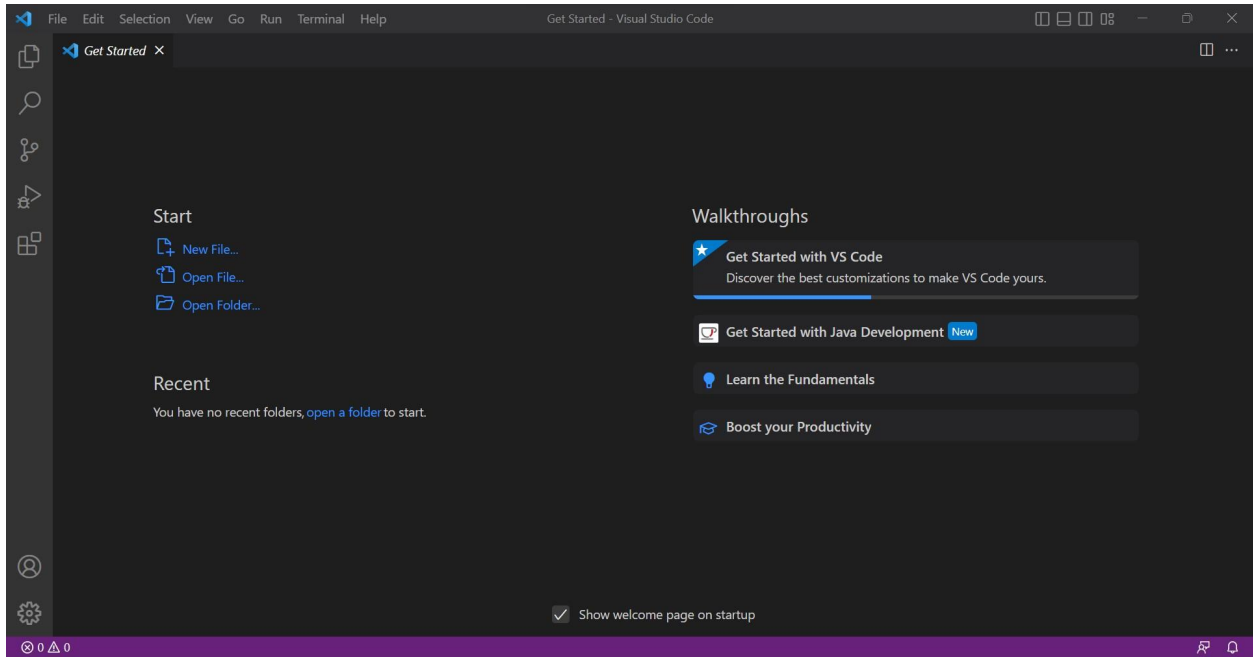

Week 1 Lab Report

So here's all the steps that do to

- Installing VSCode
- Remotely Connecting
- Trying Some Commands

For Downloading

After that in order to Remotely Connecting I change first my ucsd password account

Faculty Services Contact

Account Lookup ⓘ

Student IDs

Student IDs start with **A** or **U** and are followed by 8 digits.

New admits—please be sure to enter your **Student ID**, not your Application ID.

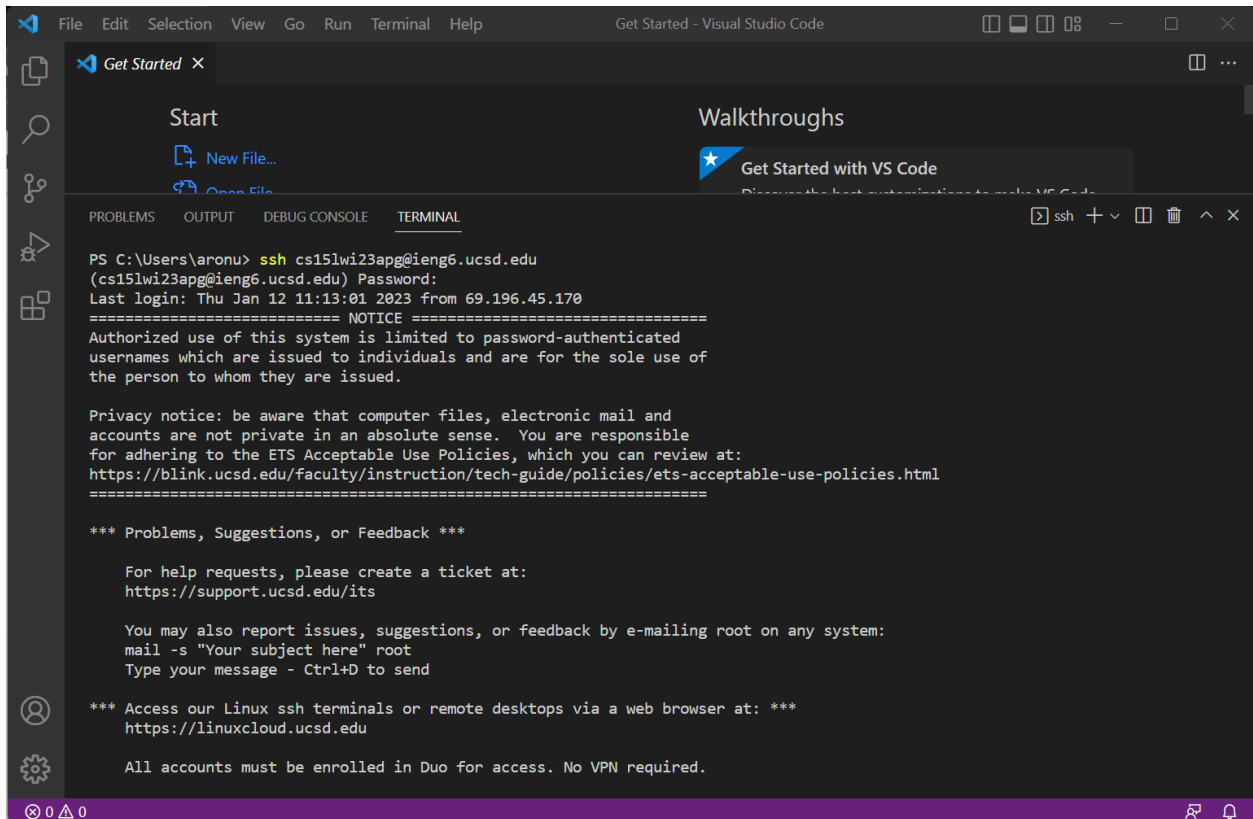

Username *

Student ID *

Forgot Username or New Student?

Last Name *

And I copied this one `ssh cs15lwi23zz@ieng6.ucsd.edu` and Login with the password that I changed

The screenshot shows the Visual Studio Code interface with a terminal window open. The terminal displays the output of an SSH command executed from a Windows command prompt. The session is with a user named 'cs151wi23apg' on a host named 'ieng6.ucsd.edu'. The terminal output includes a password prompt, a last login timestamp, a notice about system usage, a privacy notice, and contact information for support and feedback.

```
PS C:\Users\aronu> ssh cs151wi23apg@ieng6.ucsd.edu
(cs151wi23apg@ieng6.ucsd.edu) Password:
Last login: Thu Jan 12 11:13:01 2023 from 69.196.45.170

*** Problems, Suggestions, or Feedback ***

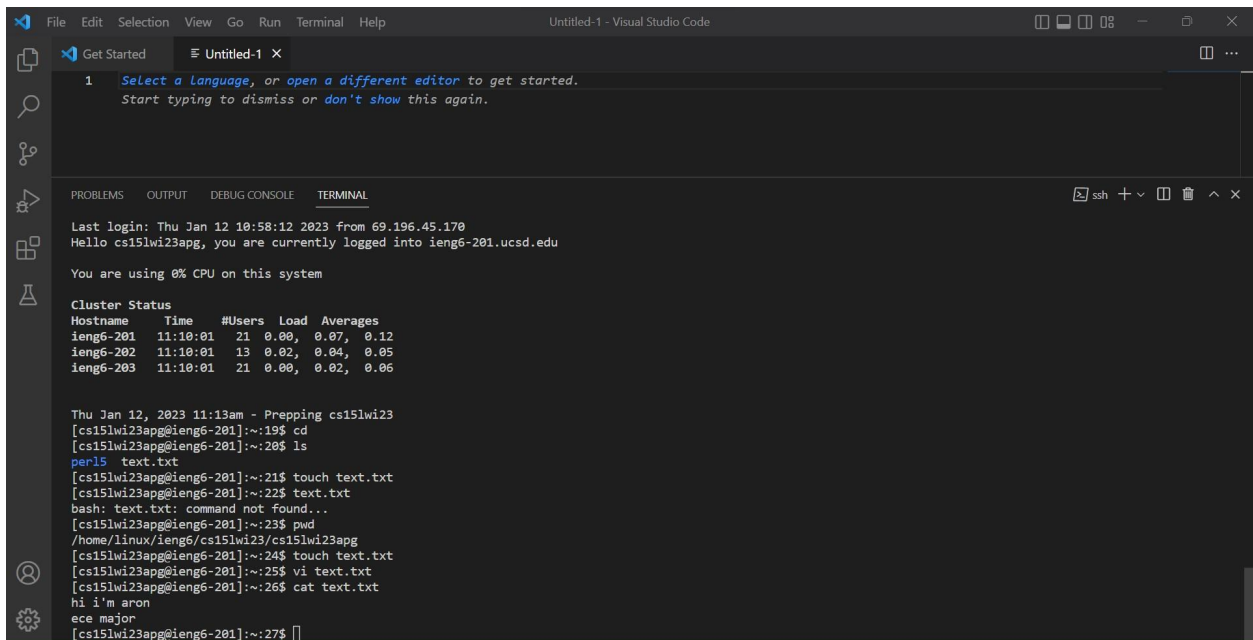

For help requests, please create a ticket at:
https://support.ucsd.edu/its

You may also report issues, suggestions, or feedback by e-mailing root on any system:
mail -s "Your subject here" root
Type your message - Ctrl+D to send

*** Access our Linux ssh terminals or remote desktops via a web browser at: ***
https://linuxcloud.ucsd.edu

All accounts must be enrolled in Duo for access. No VPN required.
```

And I run some commands

The screenshot shows the Visual Studio Code interface with a terminal window open. The terminal displays the output of a series of commands executed in a shell on a UCSD server. The commands include 'cd', 'ls', 'touch', 'vi', and 'cat'. The output shows the current directory, the contents of the directory, and the results of the file operations.

```
1 Select a Language, or open a different editor to get started.
   Start typing to dismiss or don't show this again.
